

The Particular Gifts

Fine Smokers' Accessories are gifts that a particular man is sure to appreciate

Humidors \$10.50 to \$125.00
Smokers' Sets \$5.00 to \$60.00
Pipe Racks \$3.50 to \$10.

ON each Christmas list there are always a few people whose gifts are somewhat a problem.

Often you don't know just what to give them and nobody seems able to offer a practical suggestion.

In cases like this we suggest that you spend a few moments at Birks. We have many charming, useful and often inexpensive gifts that will please the most particular person.

BIG DEBATES TAKE PLACE NEXT MONDAY

Annual Intercollegiate Meet to be Held.

SYSTEM CHANGED.

Subject—Proposed Substantial Reductions in the Tariff.

Next Monday, December fifth, will be held the annual Intercollegiate Debate. The system, whereby two teams from each of three big Universities debate on the same night, on opposite sides of the subject, will be put to the test for the first time, and interesting developments are expected.

The subject for debate is: Resolved a Substantial Reduction in the Tariff should be made by the incoming government. Coming as it does, on the eve of the election, this subject should prove of particular interest to students, both voters and non-voters.

Wilkes and O'Hagan will uphold the affirmative of the resolution in Montreal against Queen's University. Both men are exceedingly well qualified to uphold McGill in the discussion. Wilkes, a member of the Law Faculty made an extremely good impression on the occasion of his first appearance before a McGill audience when he debated on the abolition of titles. O'Hagan, an honour man in Economics, is particularly well qualified for the question at issue, and his previous experience in debating, gained both last year and again this year when he gave a very clear and convincing exposition of Group government, will stand him in good stead. A numerous and sympathetic audience is however, essential in order to bring out a most able exposition from these men and it is hoped that a large turnout will reward these men for their unsparing labours.

Queens have always been our most formidable opponents, and have in the past won several Intercollegiate Debating Titles.

The negative side of the question will be upheld by our men in Toronto. The Prime Minister and the Leader of the Opposition have for the time laid aside all party feeling and united in the common cause in foreign territory, and can be relied upon to give a good account of themselves. Peterson, who is taking Honors in Economics, is well known about the campus, his recent appointment to his present high office in His Majesty's government merely laying more emphasis on this fact. Dillon, who is in Law, is also a worthy representative of McGill as Leader of the Opposition, he has come into the limelight in college circles very much of late, and his experience and ability, combined with that of his team-mate will without doubt have their effect.

PHYSIOLOGICAL MEETING TONIGHT

Quackenbush to Read Paper on "Beaumont."

The monthly meeting of the Physiological Society will be held this evening at 8.15 p.m. in Lecture Room 3 in the Old Medical Bldg.

The principal item of interest at this meeting shall be a "Paper on Beaumont," to be read by Mr. J. G. Quackenbush, Med. '24.

The subject of Beaumont's work is of great interest, both historically and scientifically, to all medical students.

Dr. Beaumont commenced his career as an apprentice in the American army. He fought a duel. He gave evidence at a court-martial, this was immediately reversed by President Adams, and Beaumont later severely criticised the president in one of his articles. Beaumont obtained his license to practice Medicine from the State of Vermont.

Alexis Martin, a soldier of fortune, unwittingly aided Beaumont in his experimental successes, in that he was the subject who so greatly facilitated Beaumont's famous treatise on the content and action of the gastric juice from a physiological standpoint.

The story of the gunshot wound and the peculiar freak of nature in the healing of it, the story of the personal troubles of Beaumont with Alexis Martin, in a word the story of Beaumont's whole life is one so

MCGILL A.A. TO ENFORCE THE OUTSIDE RULE

Athletic Association to Strictly Enforce Rule.

M's FOR TENNIS.

Swimming Club Will Travel in U. S. in February.

Yesterday afternoon a meeting of the Athletic Association was held, at which much important business was discussed.

Special emphasis was laid on the matter of participation in outside athletics by students without permission. The Athletic Association again wish to draw the attention of the student body to the following clause in the McGill A. A. constitution:

"During the session, and including the Christmas holidays, all teams and individual students, desiring to participate in 'outside' athletics must first apply to the Athletic Association for permission, and the approval of the Director of the Department of Physical Education must be secured before such sanction is granted."

The executive wish to emphasize the fact that the severest penalty will be imposed for any infraction of this rule.

McKeen, president of the B. W. & F. Club, outlined the plans of the proposed trip of the wrestlers to Cornell. The association decided that strong recommendation should be made to the Students Council to sanction this trip. In all probability therefore, McGill wrestlers will travel to Cornell during the second week in February.

The meeting gave its sanction to the Swimming Club's trip across the border. The swimming and polo teams will engage in competition with Cornell, New York A. A., and possibly Columbia University, and West Side Y.M.C.A. of New York. In its approval of these meets, the Athletic Association laid special stress on the international aspect of the competitions, which is to be strongly encouraged.

The following awards were granted the members of the McGill Tennis team, which recently won the Intercollegiate Tennis Tournament:

1st Grade Plain M.
C. N. Ramsay, Med. '24.
P. Douglas, Sci. '24.
L. W. Brown, Med. '25.
D. McDougall, Sci. '22.
D. Morris, Com. '24.
N.B.—Morris does not receive his "M" until the completion of his second year, but is awarded Class B. Numerals.

All men who have at any time been awarded an M. of any grade, or numerals, but have not yet obtained same are asked to call at the office of the Secretary of the Students' Council, in order to aid the executive in clearing up the list of outstanding awards.

Professor—"How many senses are there?"

Student—"Six."

Professor—"How is that? I have five."

Student—"I know it. The other is common sense."

PARLIAMENT MEETS AGAIN ON THURSDAY

To Hold Second Session of Mock Parliament

FREE DISCOURSE.

Moving Picture Censorship Chief Subject of Debate.

The second session of McGill's most interesting of student assemblies, the Mock Parliament, is being held next Thursday evening. What tends to prove one of the most interesting and argumentative subjects yet disputed by the Government and the Opposition is scheduled to be included in the various discourses taking place. It is that of "Movie Censorship," a very much discussed topic of to-day. It is a great question, and is going to cause some real controversies between the pro. and con. bodies. That the astute Speaker will, of necessity, be forced to have two or three more gavel to attract those parties arguing to their senses as regards the requirements of length of time to speak, is unquestionable. Movie censorship is a pregnant question. The two leaders of the government wish it clearly understood that any McGill student who so desires may take his place in the House and enter into the various debates. Cross benches are being provided for those of a radical point of view, and any Independents, Socialists or Bolsheviks of the University who may wish to appear and add their verbosity to the occasion. It will be a fiery evening in the House, as one mentioned that various Theologs are to be in attendance to submit their protests to the public, that one sees a lot they should not these days. To add to the enthusiasm some very eloquent Meds. are going to grace the session and add their vociferous sentiments that all censors should be relegated to the ash-can, or the ornamental waste baskets that the managing editor installed in the Daily Office and that Theologians should not attend the Allen Theatre.

There is, also, going to be a time allotted in which questions may be asked of the Government of any nature whatsoever. Whether or not the government will be able to uphold its integral position under the foreseen bombardment of so many multitudinous dissimilar questions is at present exceedingly doubtful. They will, however, use every conceivable means at their disposal to amply justify their capabilities as leaders in the House.

At any rate, the attendance of five hundred at the last session is going to be completely eclipsed this time, from the present outlook. The fact (Continued on Page 2.)

CHANGING TIME FOR MEETINGS

Greater Attendance Needed in Future at R. V. C. Undergrads.

At five o'clock yesterday afternoon the Undergraduates Society of R. V. C. met in the Common Room. After the opening business of the meeting, Miss K. Newnham, R.V.C. Editor of the McGill Daily, mentioned two or three things in connection with the Daily work, especially the reporting. There are, no doubt, many students who are genuinely interested in this work, and who, although not on the Staff, would like to take an active part in it. They now have a splendid opportunity to do so, for Miss Newnham is calling for volunteers, who, when called upon, will act as reporters. Anyone wishing to help in this way is asked to communicate with Miss Newnham as soon as possible.

Class Treasurers will be interested to know that the Daily fee is now \$1.50 instead of the fee of \$1, which was the R. V. C. students contribution. Judging by the way everyone eagerly devours her Daily, there should be no difficulty in collecting the extra fifty cents.

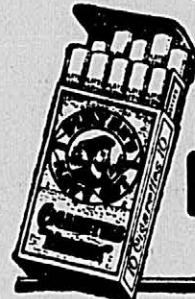

A very warm letter of appreciation was read from Miss Nichol, on behalf of the McGill Alumnae Society, thanking the Undergraduate Society for the "At Home" given in their honour during the Re-union.

Everyone interested in "The Dan-sants" will be glad to know that the (Continued on Page 2.)

WATER POLO --- M.A.A.A. 8:15 P.M.

IMPORTANT GAMES FOR POLO TEAMS

Stack up Against M.A.A.A. Outfits To-night.
FIRST GAME 8.15
M.A.A.A. Need a Win to Stay in Running.

The McGill water poloists clash with M.A.A.A. to-night at 8.15 p.m., in the M.A.A.A. tank. The McGill Intermediates vs. M.A.A.A. Intermediates will be the first event of the evening, and those two teams will provide a very exciting game. The McGill men have been going strong lately, and a win to-night will put them well on the championship road. Last Wednesday the Intermediates defeated the strong Maisonneuve team, who up till last week had not lost a game, but as this game is to be played at M.A.A.A. it is expected that they will have to go the limit to secure a win against them.

The McGill team will line up with Graham Browne in the nets. C. Anson and J. Forsyth will present a strong defence combination. J. Ross will be at centre with G. Vickerson and W. D. Munro as forwards. The spares will be A. L. Gravel and W. H. Hewitson.

The Senior teams of the same clubs will clash immediately after the Intermediate game, and although McGill defeated M.A.A.A. a few weeks ago in the Central "Y" tank, a keenly contested game is looked for, and all the McGill supporters are looking for a win. So far in the Senior series both McGill and M.S.C. have won their home games, while the remaining two games are to be played at M.A.A.A. Should M.A.A.A. win their home games, it will bring about a three cornered tie, but the McGill Mermen are out to win the championship. The McGill poloists have been travelling at a fast pace and have gained a great deal of confidence after the win from M.S.C.

A big crowd is needed for this important event, and it is an assured fact that M.A.A.A. supporters will be on hand in large numbers to root for their teams. The McGill supporters have not made a wonderful showing at any of the polo games so far, but it is hoped that there will be a large turnout of leather-lunged rooters to give their support to the teams who are battling for old McGill. The Senior team will line up with Laisley between the posts. R. H. Foss and W. H. Laidley present a stonewall defence, the unrivalled speed of G. Vernot at centre, the shooting of H. Fisk and the steadiness of L. Parsons. The McGill men will be well up to give a good account of themselves.

A match between the Professors and the students was played last evening in the Union. Dr. Maass, the Hon. President of the Club, organized and captained the staff team of six professors. The names of the players and the score are as follows: Professors, 5; Students, 1. Professor Slack, 1; Malkovitch, 0. Dr. Maass, 1; Cartwright, 0. Dr. Lamb, 1; Potter, 0. Dr. Clarke, 0; Hunter, 1. Dr. McKergow, 1; Davidson, 0. Professor Dodd, 1; Yorston, 0.

The Professors showed themselves stronger than the students, but the club hopes to be more successful in the return match.

The Science team consisted of: Forwards, P. Douglas, A. L. James; centre, E. W. Butler; Guards, H. W. Buzzell, N. L. Rochester, Spare, G. W. Olive. Rochester was captain.

In the first half Bustin's playing was most brilliant, scoring three goals almost consecutively. They lay was very fast and interesting to watch. At half time the score stood 11 to 5.

In the second half some of the men appeared to tire somewhat from the effects of the hard pace set in the first period. McKim, Roberts and James scored two goals each. When the referee's whistle blew for the close the final score stood 16 to 10 in favor of Medicine.

PROFESSORS WIN IN TOURNAMENT

Successful Against Students in Chess Match.

A match between the Professors and the students was played last evening in the Union. Dr. Maass, the Hon. President of the Club, organized and captained the staff team of six professors. The names of the players and the score are as follows: Professors, 5; Students, 1. Professor Slack, 1; Malkovitch, 0. Dr. Maass, 1; Cartwright, 0. Dr. Lamb, 1; Potter, 0. Dr. Clarke, 0; Hunter, 1. Dr. McKergow, 1; Davidson, 0. Professor Dodd, 1; Yorston, 0.

The Professors showed themselves stronger than the students, but the club hopes to be more successful in the return match.

MED. SOPHOMORES DEFEAT SCIENCE

First Game in Second Round of Interfaculty Basketball

Last night Molson Hall was the scene of a very hot contest between Med. '24 and Sci. '24. The line up was as follows:—Medicine: Forwards: S. McIntosh, G. Roberts; centre, H. B. Bustin; Guards, E. E. Day, Spare, J. D. Morris. Unfortunately the captain was absent, but McIntosh acted in his stead.

The Science team consisted of: Forwards, P. Douglas, A. L. James; centre, E. W. Butler; Guards, H. W. Buzzell, N. L. Rochester, Spare, G. W. Olive. Rochester was captain.

In the first half Bustin's playing was most brilliant, scoring three goals almost consecutively. They lay was very fast and interesting to watch. At half time the score stood 11 to 5.

In the second half some of the men appeared to tire somewhat from the effects of the hard pace set in the first period. McKim, Roberts and James scored two goals each. When the referee's whistle blew for the close the final score stood 16 to 10 in favor of Medicine.

CYRIL FLANAGAN.

President of Hockey Club, which starts active work to-day.

SHAG. GETS HOCKEY MEN OUT ON ICE

Aspirants to Teams to Have Skating Practice TO-DAY, 4-6.

Provisional Intercollegiate Schedule and Referees Announced.

This afternoon will mark the opening of the hockey season at McGill when a skating practice will be held on the lower campus rink. Coach Shaughnessy has secured permission to use this rink which really belongs to the R.V.C. until he other is available, and would like all those who have signed up, as well as any others to turn out for a skating practice between the hours of 4 and 6. No strenuous work will be undertaken on the first day, the practice being merely to get the men used to the feel of their skates, and to enable Shag to get a line on the material at hand.

About sixty men have already signified their intention of turning out this year, amongst whom are a number of former prep school stars and a brilliant player from the West. Together with the remainder of last years squad these should constitute quite a formidable aggregation.

Manager Fon who, single handedly braved off the attack of several bandits a few nights ago, will be on hand to attend to the wants of the players.

Intercollegiate Schedule:—The following is a tentative schedule which will come into effect in case the application of the Universite de Montreal is turned down.

- Jan. 21—Queens at Toronto: Hewitson, Box.
- Jan. 28—McGill at Toronto: Hewitson, Smeaton.
- Feb. 4—Queens at McGill: Smeaton, Gardner.
- Feb. 10—Toronto at Queens: Van Horne, Powell.
- Feb. 18—Toronto at McGill: Smeaton, Hyland.
- Feb. 24—McGill at Queens: Van Horne, Pulford.

HEAVY MEN WANTED BY THE WRESTLERS

No Previous Experience in Wrestling is Needed.

The wrestlers went through a hard and strenuous practice yesterday afternoon and a large number of hopefuls were present. The novices are getting into shape in fine form, and soon quite a few of them will be able to move up into the advanced class. Brisbane, a new man in the 135 lb. class is worthy of mention and with a little more experience he should prove a hard man to beat. More men are needed in the heavier and lighter weights, and everyone who thinks that he might be able to wrestle is urged to turn out. It is not always possible to win an 'M' in the first year or even in the second but every year brings improvement in form and an added knowledge of the game.

Wrestling is a strenuous exercise but a very beneficial one, and for developing strength there is no other that can compare with it.

Among the light heavies, Rumble and Freedman are the only men out so far, and more men of this weight are wanted, and are wanted out as soon as possible. If they do not think that they can win an 'M' this year they are asked to come to the wrestling class and give the others a chance to earn theirs. To develop into a good wrestler it is necessary to practice with a number of men as nearly everyone has a style of their own. The heavyweight wrestlers of McGill will stand a far better chance against the 'Varsity and Queens men if several heavy men will turn out and give them practice. Besides helping McGill towards winning the assault-at-arms there could be no better way than this of learning how to wrestle.

He—Don't you think loving is sacred? She—Well, this is a nice, quiet, religious place around here.

TO REPEAT EXTENSION LECTURES

To Be Held During Christmas Holidays. FOR JUVENILES. Proved to Be Very Popular Last Year.

Owing to the great amount of interest taken in the course of lectures for children that was put on during the Christmas vacation last year, it has been decided by the authorities to repeat the experiment again this year.

The lectures this year, four in number, are on subjects of great interest to all children between 10 and 15 years of age, and are of such nature as to be of interest to others as well.

The subjects and the dates on which they will be given are given below. Children only will be admitted in the afternoons, but the lectures will be repeated at 8 o'clock in the evening of each day, when adults will be admitted with children.

The lectures are: 1.—"Water: What it is, and What it Does," by Professor N. N. Evans, M.A.Sc., Macdonald Chemistry Building. Experiments and explosions. Tuesday, December 27th, at 4 p.m.

2.—"Wonders of Nature." By Dr. F. Slater Jackson, Macdonald Physics Building. A projecting microscope will be used to show small objects and living creatures largely magnified on a screen, for example, crystals, cheese mites, water fleas, blood corpuscles, butterfly scales, etc. Thursday, December 29th, at 4 p.m.

3.—"How a Ship Finds her way at Sea," by Professor T. H. Matthews, M.A., Macdonald Physics Building. The magnetic and gyroscopic compass. The taking of sights. Chronometers and wireless time signals. Directional wireless. Sounding machines. How a ship is actually steered. Professor Matthews went round the world with Lord Jellicoe in H.M.S. "New Zealand," and will show some views of this cruise.—Friday, December 30th, at 4 p.m.

4.—"Wireless Telegraphy," by Professor A. S. Eve, C.B.E., D.Sc., F.R.S., Macdonald Physics Building.—Monday, January 2nd, at 4 p.m.

The fundamental principles will be explained experimentally, and gramophone music and voice received by wireless from the Marconi Company's station.

The room will seat two hundred only. The price of white tickets for all four afternoon lectures is \$1.00. Tickets for separate lectures will not be sold. The tickets are transferable between children. Two hundred red tickets will be sold for the evening lectures, the price being \$1.00. Payment must be made in advance.

Apply in writing on or after Dec. 1st, to The Director, Macdonald Physics Bldg., McGill University.

PHYSICALS EDS. ENTER TEAM IN CITY LEAGUE

Now that lacrosse is over the Physical Eds. are taking advantage of the in-between season before hockey activities commence, to get their basketball teams in shape. With two snappy practices a week, Miss Cartwright's coaching and such material in the school for basketball as never before, the girls feel that they stand a good chance of winning a large percentage of the games they play during the season.

The Undergraduate Society of M. S. P. E. will also play a team in the city hockey league. Many of the girls are very keen on the sport, and are extremely anxious for ice. Miss J. Collins is the M. S. P. E. hockey manager and league representative.

STIRRING PHYSIOLOGICAL MEETING TO-NIGHT.

(Continued from Page 1.) full of adventures, successes, adventures and unexpected events, that it vies with the best of our present day short stories.

Needless to say, Mr. Quackenbush, in his versatile way, will do justice to the above work, and the executive of the society look forward to a record attendance at this meeting.

The executive wish to announce also that a number of copies of a list of the books in the society's library has been printed, and these will be distributed at the meeting. Also that the books borrowed at the last meeting are due at this meeting. They respectfully ask the members to turn these books in as they enter Lecture Room 3. A new supply of books will be at their disposal at the close of the meeting.

Prof. Tait will be present. To him is due the success of the society's library, and he has great hopes for the future success of the society as a means of broadening the student's mind on physiological topics.

We invite you to take advantage of our saving prices and make our stores your headquarters for all your requirements.

AT THE THEATRES

ORPHEUM

The management of the Orpheum deserves three cheers and a McGill yell for the manner in which "Kick In" is presented. The play is suited for stock production which results in a well balanced cast.

The players of this house never seem bored as is very often the case in travelling companies and in a play such as "Kick In," this means much. Mr. W. Naughton as "Chick Hewes" a former crook gives the natural performance which always characterizes this actor's work. Miss Mary Daniel has a part with which she can, and does do, a great deal. Mr. Irving Mitchell as the "snow eater" is splendid. The remainder of the characters are well cast and all carry their share of this work equally.

The plot while not unusual is nevertheless very interesting. It contains several genuine thrills and the suspense is kept up throughout. It is a play concerning "rocks," "bulls," "stir," "dips" and many more underworld terms which are very kindly translated on the programme.

If your friend has any money invite him to take you to this popular little house and he will thank you after seeing his creditable performance. While they have lowered their prices the Orpheum players seem to be keeping to their motto of "Always a Good Show."

P.S.—For the benefit of members of the R.V.C. it may be stated that while revolvers are very often displayed, none of them are ever used.

THE PRINCESS

Once again the Princess have scored, and if bills like this are presented for the rest of the season, the Shuberts will not make much headway with their vaudeville scheme for Montreal.

The overture and news were heard and seen by about half the audience, as usual, and as usual is well worth coming in time for.

The first act much better than usual. Watches, clocks and many more things "go somewhere," and come back from that place whenever the performers desire. A dancing act follows, which drew applause by its "naustialness. It is clever and well dressed. A one act skit, of which there are far too few in vaudeville, is well acted and is amusing.

Bert Walton is "darn funny," and one has a brotherly feeling with him when he tells us about his troubles with the girls.

The Bob Pender troupe, coming on after Bert Walton, had a hard place to fill, but managed to keep the audience laughing with their eccentric dancing and animal impersonations.

The Weaver Brothers have a novel musical offering, which, while not brilliant, is pleasing.

But the Trixie Friganza goes the honours. "Trix," if I may call her that, is a delight. She is a joy to watch, and if there were more "Trixies" on the stage, the vaudeville theatre would be improved for the better.

The last act, like the first, was not an acrobatic one, and the Andrieff trio proved themselves capable dancers.

The Princess this week answers your question: "What Shall We Do To-night?" And, listen, fellows, there are several wonderful girls on the bill.

CAPITOL

"The Sheik," at the Capitol this week, is a curious mixture of acting which is almost flawless and a plot which is so unusual that it causes one, at times, to gaze reflectively at the beautiful roof which the theatre boasts of. But it is an ingenious plot, and after a few scenes, its unusual character is eclipsed by the fine quality of the acting, especially that of Rudolph Valentine, of "Four Horsemen" fame. He is pretty much the same in "The Sheik" as he was in the latter film, and one sees again those expressive eyebrows, those roiling and flashing eyes, the brilliant teeth, and above all, his inimitable poise and gesture. It would be needless to give a lengthy and boring account of the story itself, but let it be sufficient to say that the climax is so employ the words of a once-popular song, "well worth waiting for." The atmosphere and setting is well done, and on the whole quite convincing. One is practically impressed by the desert scenes. As to the character portrayal of the Sheik, and the change of attitude towards him of the English beauty whom he carries off, it is well enough sustained to be entirely satisfactory, and no fault can be found with this side of the play. On the whole, curious and unusual, but executed in a capable way, and it should please everybody, especially the admirers of the debonair Mr. Valentine.

Preliminary atmosphere is created by

ONTARIANS BEGIN WITH ENTHUSIASM

Sir Arthur Currie and Professor Carruthers Spoke. 107 PRESENT. Boxing Held—Science Finals Graham, 125, Wilson 118 lbs.

Whizz—Bang. 107 enthusiastic Ontario men made the opening festivity of their club the liveliest and liveliest club meeting of the year. Sir Arthur lent dignity and Professor Carruthers backed up his timely review of Ontarians' qualities.

Graham and Wilson won the boxing championship of Science in their weights, the feature of the evening. Graham was matched against Pecking in 125 lb. class and Wilson against Wheatster in the 118 lb. The first bout of the evening was a semi-final 108 lb. Science in which Sharpe was victor over Hamilton.

While the members filled their pipes, the President read Eddy Crain's resignation from the vice-presidency. It was accepted without regret and nominations were opened. G. H. Rumpie was elected. Rumpie was the moving spirit in starting the Ontario ball rolling and deserves great credit for his initiative, and interest for the club. The constitution was read and adopted.

At this stage Sir Arthur entered. At the organization he was unanimously elected Honorary President. He thanked the club and reviewed the Ontarians traditions very briefly. The members were fortunate in also hearing friendly advice as fellow Ontarians.

Professor Carruthers spoke to the men and recalled his feelings when hearing of the formation of the organization.

The Boxing was next, followed by singing. McGill songs, Alouette, Ham-burg Show were favorites not to forget Mademoiselle and Old MacDonald. To the President of the Glee Club is due in no small measure their success. Ontario is well to the fore musically for all the orchestra are members and directed by Cliff. Menzies, of Ottawa.

The Cafeteria supplied refreshments which were unusually tempting and plentiful. Hunger appeased, Hail Alma Mater and the national anthem preceded a hearty McGill yell—the close of the first evening and the beginning of one of the most enthusiastic organizations in McGill.

the Capitol Ballet Corps in a scene which seems to be a cross between an Oriental harem and a bit of Chin Chin Chow. The dancing is excellent, and the costumes and setting can be described by no other word than dazzling. In addition there are several excerpts from "Rigoletto," in which the tenor part deserves especial mention. This very satisfactory bill is rounded off by a news review, including a Pathe colour film, and a sufficiently humorous Christie Comedy.

COLLEGE MAN GIVES ADVICE TO REPORTERS

Nephew of Late Principal Peterson is Successful Journalist. TIMES CORRESPONDENT.

Three Essential Points Outlined by Melbourne Univ. Graduate.

In his address to the McGill Daily Staff, Mr. Archibald, Editor of the "Montreal Star" spoke about the opportunities open to University men and women taking up journalism. A recent step up in the career of a young reporter lately employed on a newspaper in Melbourne, Australia comes as an interesting supplement to Mr. Archibald's remarks. The story is that of a university man turned journalist and on this account should be of great interest to those students who are seriously considering newspaper work; moreover, the gentleman concerned is Mr. Frankin Peterson, nephew of the late Sir Wm. Peterson former Principal of McGill University. Mr. Peterson went to bed one night a conscientious, diligent, but busy young reporter, he awoke next morning to find himself faced with the offer of an excellent position on the London Times; and thus, before the age of thirty he has been engaged by Lord Northcliffe himself, as assistant to Mr. Wickham Steed, Editor of the London Times, and in this capacity Mr. Peterson attended the opening of the Washington Conference.

Mr. Peterson's appointment came about in an almost romantic way. One evening he was sent by his editor to interview Lord Northcliffe during that gentleman's visit to Melbourne, and evidently so impressed the great journalist that he followed up the young reporter and engaged him at once, sending him off post-haste to join Mr. Steed at Washington, with instructions to study the question of disarmament especially from the Pacific point of view. Mr. Peterson is at present in Canada, where, as correspondent for the Times, he is to study the present Canadian Political situation.

During his law course at Melbourne University, Mr. Peterson was keenly interested in journalism, and there he was for some time Editor of the college's magazine; thus he fully understands and appreciates the difficulties with which students engaged in the issue of a college paper have to contend; and he expressed great admiration in the fact that McGill was able to carry on a Daily issue.

Few journalists are university-trained men, and yet in Mr. Peterson's opinion, college men should be first-class journalists owing to the great advantages they have. Speaking from the point of view of a university man taking up journalism as a profession, there are three things which according to him, should be remembered by the budding journalist. First of all, in his own words, the

CONFERENCE GAMES BREAK OLD ATTENDANCE RECORDS.

Five Western Universities Plan Stadiums to Accommodate Football Spectators.

All previous attendance record for the Western Conference football games were broken this fall, according to statistics announced by some of the universities, and for at least five of the colleges new stadiums are now under construction or are at least in prospect. Michigan, with her new stadium dedicated this fall, drew 114,000 spectators, and Chicago, with a seating capacity equal to barely half the demand, drew over 160,000, the receipts totaling more than a third of a million dollars.

ATTENDANCE STATISTICS

The Iowa game at Minnesota attracted 23,000, where the gate receipts for the season were \$62,000, one of the best years in the history of the University of Minnesota. Wisconsin was compelled to turn away large crowds at her homecoming game with Michigan. The football profits of the Badgers are being used to complete a new stadium, seating 56,000, which is now half way finished. Ohio States plans to dedicate her new football field next fall. The double deck stands will accommodate 65,000.

Illinois has collected a large part of the \$2,500,000 necessary for her memorial stadium which is to be ready for the 1923 football season. At both Iowa and Minnesota the question of providing more adequate seating facilities has been broached by the athletic directors. Coach Jones of Iowa is now in the East studying the different types of athletic fields and stadiums.

Tee: Can Jane dance?
Toat: Huh! She's got the swellest cheeks in town. —Awgwan.

all-important fact that "good English is good writing, whether for literary, commercial or sporting news." A reporter must not think that a new and different style of diction is necessary. That the newspaper men realize this is evidenced by the fact that at the Washington Conference, among the press gallery were "Star Turns" from all English, American and Continental papers. The English papers alone had such writers as H. G. Wells, Arnold Bennett, and Bernard Shaw to write up special articles. "This shows that the newspaper world realizes that the reading public want the best writing."

Secondly while still at college, the intending reporter should try to get a bit of a name in a small way in the newspaper world, usually by getting articles accepted in some newspaper or magazine. Thirdly he must remember that journalism is a hard task-master, and must be prepared to make many sacrifices in the way of social pleasures in order to become a successful reporter. For newspaper work as a profession is totally different from taking it up as a sort of hobby at college, though this is of course a splendid preliminary training.

It is encouraging to hear the opinions of one who has passed through the mill before us, and who knows but that an equally golden opportunity is in store for some diligent and painstaking reporter on the staff of the McGill Daily!

The Men You Elect TOMORROW

will be responsible for the execution of all student business--- will direct the spending of your "universal fee" for the next twelve months---

USE YOUR VOTE TO PUT IN BIG MEN FOR A BIG JOB

NOTICES

The attention of students is drawn to the following clause in the constitution of the McGill A. A.

"During the session and including the Christmas holidays, all teams and individual students desiring to participate in 'outside' athletics must first apply to the Athletic Association for permission, and the approval of the Director of the Department of Physical Education must be received before such sanction is granted."

All men who have at any time been granted awards of any grade—M's or numerals—but have not yet obtained same, are asked to call for them at the office of the Secretary of the Students' Council.

HARRIER PHOTOGRAPH.

The following members of the Harrier Club are asked to be at Notman's Studio on Wednesday, Nov. 30, at 5 p.m.—

Legge, Egerton, Wiggins, Copeland, Owens, Read, Simpson, Stephen.

There will be a meeting of the B. W. & F. Executive in the Union at 5 p.m., Wednesday.

PHYSIOLOGICAL SOCIETY.

There will be a meeting of the above club in Lecture Room No. 3, Medical Building, at 8.15 p.m. tonight.

MEETING OF R. V. C. '24.

A meeting of R.V.C. '24 was held yesterday. Miss K. Dawson was in the chair. The following girls were elected for the Story Telling Contest:—

ELECTION DAY FOR STUDENTS' COUNCIL

To-morrow Students will Vote for Faculty Representatives.

Tomorrow is election day at college. Faculty Representatives will be elected for the Student Council, the body governing all student activities at the University. This election was postponed from last week in order to stir up more enthusiasm and to better acquaint the undergrads with the platforms of the different candidates.

The voting will take place in the faculty buildings, this is to ensure that every undergrad will vote at this important election. The men who are elected represent their respective faculties on the Council. They are the sole spokesmen and any matters a faculty wishes to be brought up must be brought up by their representative. This necessitates that very capable men are elected.

The platforms of the candidates, together with their photographs will be published in tomorrow's "Daily". Although the photographs may interest a certain section of McGill more than the platforms, the platforms are the real advertisements of the men.

There are fourteen men nominated for these positions, every faculty except Medicine having a contested election. In Medicine L. Parlow was the only candidate and was therefore elected by acclamation. Science is putting up A. G. Dickinson, W. G. (Pete) Cuttle, F. L. (Leo) Parsons and J. E. (Eddie) Crain. Arts' two men are D. M. Johnson and Bert Tremaine. Law has nominated four men: J. Robinson, R. D. Taylor B.A., E. C. Martin and Wilkes. Dentistry's choice will be between J. H. Lashley and A. J. MacMillan.

M. Brooks, P. Murray, C. Russell and J. Robins.

Two girls were also elected for the Interclass Soph.-Freshie Debate: — D. Hay and E. Massy-Bayly.

After some discussion, the meeting adjourned.

ARTS '25.

The Arts banquet, which was to have been held at the Place Viger Hotel, will be held instead at the Queen's. Time: 7 p.m. Date: 30th November, 1921. As LAST YEAR, this will be a "dry" banquet.

SCI. FOOTBALL.

Please sign up with Harry for photo of team.

One sweater and two pairs of pants must be returned at once to the Manager.

LOST.

One black leather covered note book, also "Triumph Note Book," left on table, Redpath Library, on Thursday. Finder please leave with Janitor, New Medical Building, or return to J. M. Stockhausen, Med. '27.

INTER CLASS BASKET BALL SCHEDULE

Second Round

The Fate of the Dominion rests in the hands of The Women of Canada

WOMEN OF CANADA—Today you hold the greatest power ever held by the women of any nation in the history of the world. The fate of the Dominion rests in your hands. The whole outside world is watching what you will do with your vote, watching to see whether you are going to let Canada lose in peace what she gained in War.

Through the long struggle of the war you proved yourselves equal with men in stern, unselfish patriotism and fervent devotion to duty. In war you gave your husbands, sons, brothers, lovers and carried Canada over the top. In peace you are to decide whether Canada is to become the great nation for which your men fought and gave their lives, or whether uncertainty, unrest and discord are to prevail.

In the days that are past, Canada's progress has been hampered by different factions pulling in different directions. East and West, Quebec and Ontario, farm and factory, labor and capital, various races and creeds, have all been acting in opposition, selfishly, and to the disadvantage of the nation as a whole.

WOMEN OF CANADA—in this election you can compel all the factions in the Dominion to pull together. With all communities and interests from the Atlantic to the Pacific acting in unison and in harmony, Canada will take its rightful place as one of the foremost nations of the world.

The only thing that can hold back Canada's prosperity is lack of national unity. **WOMEN**—Vote for a united Canada—compel unity. United, Canada is safe; divided, Canada faces the financial collapse that is at present engulfing half the world.

What Canada needs to ensure unity is wise, constructive, impartial government.

MEIGHEN is the leader of the Government which gave you the vote. He is the only leader in Canada today who stands firm for policies which are a guarantee of unity, for policies which have respect for the interests of all classes. His policies will conserve the home, give employment to your bread-winners, and ensure security and prosperity for farm and factory, forest and mine, for the whole country.

My Special Appeal To Women

To the Women of Canada, I make this especial appeal. I ask you to earnestly and thoroughly study the great issues that now confront the country, and to conscientiously seek a personal decision, refusing steadfastly to be moved by reckless appeals, or by the cry of prejudice or by class appeal. I ask you to review my record and if you find my past and present stand on the great questions concerning the Dominion's National policies acceptable, I ask you not only to vote for my candidate in your constituency but to exert all possible influence on his behalf. The Government which extended the franchise to the Women of Canada invites you to help to build up that which was torn down by the War and to take your proper share of the

responsibilities in shaping the destinies of your country.

I ask the Women of Canada to destroy definitely and forever the plans of those who, through selfish motives, attempt to unbalance the people of Canada and thus wreck the unity which made it possible for us to take such a valiant part in the great War.

I ask the Women of Canada to force that unity which will be abiding, which will result in permanent prosperity for all classes, and which will make Canada the envy of the world—that unity which is my one aim and ambition.

(Signed) ARTHUR MEIGHEN
